

ABSTRACT OF THE DISCLOSURE

Printing the image data displayed on an LCD (38) and its print number or incrementing the print number by one can be specified only by depressing a DPOF dedicated switch (41) 5 while the still image is being displayed on the LCD (38). For example, if the DPOF dedicated switch (41) is depressed when still image is being displayed in a reproduction mode, the print number of displayed image data is set to one, and if the DPOF dedicated switch (41) is depressed successively 10 without changing the displayed image, the print number of the image data is set to two.
